

3.2.S.1.3 General Properties

The general physicochemical properties of Irbesartan manufactured at Yichang Changjiang Pharmaceutical Co., Ltd are summarized in the table below.

Table 3.2.S.1.3-1 Summary of the Physicochemical Properties of Irbesartan

Item	Description
Appearance	White or almost white, crystalline powder
Solubility	Sparingly soluble in methanol, slightly soluble in ethanol and dichloromethane, practically insoluble in water
Hygroscopicity	Not hygroscopic
Absorption maximum	UV max:204.0 nm (in methanol)
Morphology	Form A
